

ALL WEATHER
ARCHITECTURAL ALUMINUM

THE SERIES 6500 WINDOW SYSTEM

INTERIOR GLAZED | SUPERIOR QUALITY

The Series 6500 window is All Weather's highest rated window product, and the perfect interior glazed solution for buildings 12 stories and under.

Built to meet virtually any design and performance criteria for an aluminum window product, the 6500 has mitered and crimped corners to provide exceptional strength and a contemporary look, while the thermal strut provides increased energy efficiency, improved condensation resistance and even unique two-toned finish from interior to exterior if desired. The 6500 is truly built to be the best.
